

Understanding Your Labs

Decode metabolic panels, hormones, and inflammation markers.

Common Panels

CMP, lipid panel, HbA1c, testosterone (total/free), thyroid, and hs-CRP are frequently used in optimization care.

Reading Trends

A single number matters less than direction over time-your provider reviews both.

Your Next Step

Request a metabolic panel through your Reform Vital assessment.

Physician-reviewed - Educational use

This guide supports informed conversations with your licensed provider. It does not replace personalized medical advice. Start your assessment at reformvital.com/start
